

# Sunsmart Policy

## Purpose

The purpose of this policy is to encourage behaviours at Cardross Primary School that reflect a healthy UV exposure balance, ensuring some sun exposure for vitamin D while minimising the risk of skin cancer.

This policy provides guidelines to:

- support staff and students to use a combination of sun protection measures when UV index levels are 3 or above (generally September – April) and allow sun exposure when UV levels are below 3 (generally May – August)
- ensure that there are outdoor environments that provide adequate shade for students and staff
- ensure students are encouraged and supported to develop independent sun protection skills to help them to be responsible for their own protection
- support our school's strategies to meet its duty of care and occupational health and safety obligations to minimise harmful UV exposure and associated harm for students and staff.

## Scope

This policy applies to all school activities, including camps and excursions. It is applicable to all students and staff.

## Policy

A balance of sun exposure is important for health. Excessive exposure to the sun can cause health problems including sunburn, dehydration, damage to skin and eyes, and an increased risk of skin cancer.

Too little UV exposure from the sun can lead to low Vitamin D levels. Vitamin D is essential for healthy muscles and bones, and overall health.

### UV radiation:

- cannot be seen or felt
- can be reflected off surfaces such as buildings, asphalt, concrete, water, sand and snow
- can pass through light clouds
- varies in intensity across the year (highest in Victoria from September - April)
- peaks during school hours

School name: Cardross Primary School	Policy Name: Sunsmart Policy		
Approved by CPS School Council	Date: <b>May 2021</b>	Next: <b>May 2022</b>	Version: 2.0

A combination of sun protection measures should be put in place from September to the end of April, and whenever UV levels reach 3 and above.

Cardross Primary School **has** the following measures in place to help reduce the risk of excessive UV sun exposure for staff and students.

## Shade

Cardross Primary School will provide for sufficient options for shelter and trees to provide shade on school grounds, particularly in places such as:

- where students congregate for lunch
- the canteen
- outdoor lesson areas
- popular play areas
- assembly areas
- sporting grounds

When building works or grounds maintenance is conducted at Cardross Primary School that may impact on the level of shading available to staff and students, a review of the shaded areas available will be conducted and further shading installed as appropriate.

## Sun protective uniform/clothing

Cardross Primary School recommends that from September to April, and whenever UV levels reach 3 and above, students wear sun-protective clothing such as:

- Bucket hats
- School T shirt
- longer style shorts and skorts
- rash vests or t-shirts for outdoor swimming activities.

Cardross Primary school- At recess and lunch times from September to April, and whenever UV levels reach 3 and above, all students **must** wear a hat when playing outside.

Staff and students are encouraged to wear hat styles that protect the face, neck and ears when outdoors, for example broad-brimmed, legionnaire or bucket.

Students are required to wear a school hat or another hat style that protects the face, neck and ears when outdoors, for example broad-brimmed, legionnaire or bucket. Students who may not be wearing appropriate protective clothing or a hat may be asked to play in the shade or in a suitable area protected from the sun.

## Sunscreen

Cardross Primary School encourages all staff and students to apply SPF 30+ (or higher) broad-spectrum, water-resistant sunscreen daily at a minimum from September to the end of April, and whenever UV levels reach 3 and above. Sunscreen should be applied at least 20 minutes before going outdoors, and reapplied every two hours if necessary.

At Cardross Primary School students are welcome to attend staff room, office to access sunscreen. All classrooms also have access to sunscreen. Staff and students who may suffer from allergic

reactions from certain types of sunscreen are encouraged to contact Mr Trembath to implement a management plan to reduce the risk of an allergic reaction at school.

Staff and families should role model SunSmart behaviour and are encouraged to apply SPF 30+ (or higher) broad-spectrum, water-resistant sunscreen when outside from September to the end of April or whenever UV levels reach 3 and above.

## Curriculum

Students at our school are encouraged to make healthy choices, and are supported to understand the benefits and risks of sun exposure. Cardross Primary School will address sun, UV safety and Vitamin D education as part of PE lessons. Staff are encouraged to access resources, tools, and professional learning to enhance their knowledge and capacity to promote sun smart behaviour and Vitamin D education across the school community.

## LINKED POLICIES – LINKED POLICIES TO BE INCLUDED

## EVALUATION – THIS STATEMENT TO BE AT THE END OF EVERY POLICY

This policy will be reviewed annually or more often if necessary due to changes in regulations or circumstances.
